

The Daily Courant.

Saturday, November 9 1700.

From the Amsterdam Gazette, dated Nov. 12.
Madrid, Oct. 22.

THE 20th Instant the King went from hence for the Escorial, there to receive the Queen, who set out the same Day from Burgos to come thither by the Way of Valladolid and Segovia. Their Majesties are expected here the beginning of next Week, and great Preparations are made for their Reception. We are inform'd the Duke of Berwick is advanc'd within 4 Leagues of Alicant with his Army; and that the Enemy having left a strong Garrison in that Place, are retir'd towards Denia, where they are incamp'd on very advantageous Ground. Don Gabriel Hurtado de Amezaga, Quarter Master General of the Army, is dead of a Wound he receiv'd by a Cannon-shot near the Duke of Berwick, in pursuing the Enemy in their Retreat. King Charles's Party increases in Arragon, where his Adherents have lately possess'd themselves of the Town of Borja. The Court has receiv'd Advice, that the Isles of Majorca and Ivica have submitted to the Obedience of King Charles III.

From the Antwerp Courant, dated Nov. 12.

Pampelona, Oct. 28. We have Advice here, that King Philip and his Queen are return'd to Madrid, and were receiv'd in great Splendour by the Inhabitants. Letters from thence, say the Duke of Berwick is come back a little with his Army, to attack Requena and Xativa, that his Troops may the more commodiously Winter in Valencia. Several Advices agree, that King Charles having left the Army commanded by the Earl of Galloway, is gone by the Way of Tortosa to Barcelona, to be present at the Opening of the Cortes or Assembly of the Estates of Catalonia, which by his Order are summon'd to meet the beginning of next Month. Since Wednesday last, several Expresses from Paris are gone through this Place for Madrid, to acquaint that Court that a strong Fleet from England is sail'd as is suppos'd for Spain; which News will probably cause some Alteration in the Duke of Berwick's Measures.

From the Amsterdam Gazette, dated Nov. 12.

Venice, Oct. 30. Letters from Brescia advise, that the Imperialists under General Werzel have possess'd themselves of the Post of St. Caraldo which commands the City of Modena: They have likewise in a manner bloc'd up Mirandola. The Duke de Moles is arriv'd at Bologna, whence he will proceed to Leghorne to embark for Spain. The Ambassadors extraordinary of this Republick, that are to go to England, have fix'd the 3d of next Month for the Day of their Departure.

Milan, Oct. 30. The Garrison of Alexandria were made Prisoners of War, except the French, who were disarm'd and conducted to Suza. General Colmenero Governour of that Place, has had Leave given him to go on his Parole to Paris. The Garrison of Pizzighirone, after the Imperialists had possess'd themselves of the Half-Moon, surrendered the 27th Instant on Condition that the French should retire to Cremona with 4 Pieces of Cannon; but that the Spaniards, Swiss, and Italians should take Service in the Imperial Army. It has been reported Cremona was besieg'd, but the Rains continuing, that Enterprize is put off to a better Season. The Duke of Savoy is returning with his Army towards this City, and 'tis talk'd Prince Eugene's Army is march'd towards Valenza to attack that Place, if the Weather permit. The Fort of Fuentes has surrendered to the Imperialists, who have made that Garrison Prisoners of War. Prince Eugene is nominated Governour of the Milanese by the Emperour, and the Prince of Hesse Darmstadt is to command in it in his Absence. All this State of Milan is now reduc'd to the Emperour's Obedience, except Cremona, Final, Va-

lenza, Mortara, the Castle of Tortona, and the Castle of this City.

Genoa, Oct. 23. The Earl of Peterborough has been indispos'd some Days, but being perfectly recover'd he set out from hence on Thursday last for Novi, whence he will be attended by a Guard to Turin. There arrive daily in our Territories Families that retire from Final, Monaco, the Tortoneze, and the Alexandrin. They write from Leghorne, that a Felucca is arriv'd there from Barcelona with Letters of the 3d of this Month, which give an Account of great Rejoycings made there for the Victory gain'd before Turin and the Relief of that Capital. Three English Men of War that are at Leghorne, wait for the Duke de Moles the Emperour's Ambassador to King Charles III, to carry him to Spain. They write from Turin, that the Fortifications of that City are repairing, and that new Levies of Men are making.

Francfort Nov. 7. The Duke of Lorraine set out from hence Yesterday to return to Nanci; and the Bishop of Osnaburg his Brother went away at the same Time for Vienna.

From the Paris Gazette, dated Nov. 6.

Paris, Nov. 6. Letters from Brest of the 27th of last Month advise, that the St. Esprit a Privateer of St. Malo, had brought into Brest an English Bomb-Vessel taken near the Sorlings. She carried 2 large Mortars of 14000 weight each, and Bomb of 200 weight each. The Frigate the Embuscade commanded by Captain Tanqueray, has likewise brought into Brest a Privateer of Flushing of 20 Guns and 160 Men, which he took in the Height of Ushant, after so obstinate a Fight, that the Captain of the Flushing and all his Officers were kill'd, and 60 Men kill'd or disabled; there was not one Man kill'd on Board the Embuscade.

From the Amsterdam Courant, dated Nov. 12.

Hague, Nov. 11. The Marquis del Borgo Envoy of Savoy, has receiv'd a Confirmation of the Surrender of Pizzighirone to the Duke his Master, with this Particular, that because of the bad Weather the Garrison consisting of 400 French and 200 Spaniards were allow'd to march out on favourable Conditions; that most of the Spaniards took Service under the Imperialists, or deserted, but that the French were conducted to Cremona. M. Gersdorff the King of Poland's Envoy here, receiv'd this Afternoon the following Letter from M. Wotter King Augustus's Resident at Berlin.

S I R,

THE Victory which the King has obtain'd over his Enemy has been attended with great Advantages. 'Tis advis'd as certain that hardly 200 Swedes escap'd; about 1000 of them who threw themselves into the Town of Kalish, yielded at Discretion, the rest were cut in Pieces. General Mardefeld and 4 Collonels were taken. The Saxon Horse took 19 Swedish and 44 Polish Standards, the rest fell into the Hands of Poles and Muscovites. 'Tis rumour'd there has been an Action in Lithuania between Prince Wisnowiski and General Leuwenhaup, in which the latter was worsted, but it requires Confirmation. We long for a particular Relation of the first Victory, which we cannot fail of receiving by the next Post.

Hague, Nov. 12. The foreign Ministers have all complimented the Duke of Marlborough on his glorious Successes this Campaign, and on his Arrival here. Two Days ago a Deputation from the States made him the like Compliments, and had afterward a long Conference with him: 'Tis said that among other things that were discours'd of in that Conference, one was of making some Alteration in the Council of State of Brabant; and 'tis believ'd the Count of Tirclemont one of the

the Members of the said Council will be remov'd from that Employment, he being suspected of communicating what passes in that Council to the Count de Bergeyck, who is with the Elector of Bavaria, and with whom he is said to hold a very strict Correspondence. The Count of Clermont, another of the Members of the said Council, came hither with the Duke of Marlborough, and solicits the putting in of some eminent Persons and removing others out of it. Count Sinzendorf, who likewise came hither with his Grace, makes no little stir about the Government of the Netherlands. He has intimated, that out of Regard to the States the Court of Vienna will make no further Opposition against the Bishop of Paderborn; and to dispose effectually the Court of Rome to pass an equitable Judgement on the contested Election of Munster, Orders are sent to the Generals of the Troops that are in the Pay of the States in Italy, to signify to the Legate of Ferrara, or some other Prelate, that if the said Court do not do Justice to the Bishop of Paderborn, their Troops will not be altogether so tender of the Territories of the Church as they have been hitherto: The States are peremptorily determin'd to see an End of this Affair this Winter, and not to brook long Delays. To Day the States Deputies had a Conference with the Duke of Marlborough, about the Desir'd Guaranty for securing the Succession of the Crown of England to the House of Hanover. Letters from France, say, that after all the the Enemy's Army will not return into Piemont; that the Duke of Orleans was expected at Paris the 10th Instant; and that Order is sent to the Count de Medavi, if he finds he cannot maintain himself in the Mantuan, to make to Naples with his Troops.

Falmouth, Nov. 4. Yesterday put in here the 3 Brothers of and from Elizabeth River in Virginia, which sail'd from thence the 10th of September with about 300 Sail, under Convoy of Her Majesty's Ships the Greenwich, Woolwich, Hazardous, and Advice, and was separated from them by bad Weather 36 Days since, when the Master reports he saw several Ships make Signals of Distress. By a Ship arriv'd in 10 Days from Li bon 'tis advis'd, that the 18th past arriv'd there the Earl of Essex in the Orford Man of War with 7 Sail of Transports, being separated from the Fleet under Sir Cloudfly Shovel by bad Weather 9 Days before; that on the 21st arriv'd at Lisbon 7 Men of War and 36 Transports, and the 22d and 23d several other Transports. The 30th at 4 in the Morning this Ship came through a considerable Fleet, which she supposes to be the rest of Sir Cloudfly Shovel's.

Deal, Nov. 7. To Day came into the Downes Her Majesty's Ships the Prince George, Grafton, and Hampton Court; as also the Barbadoes Fleet, under the Convoy of the Kinsale and Dolphin.

EDINBURGH.

Minutes of the Proceedings in Parliament on Friday the first of November. Act for adjourning the Session till the first of December next read for the second time, and voted and approv'd. Moved that the Parliament now proceed to the further and more particular Consideration of the Articles of Union, in order to approve them or nor, and to begin with and read the first Article. Moved also, that the further Consideration of the Articles of Union be yet delay'd for some considerable time, that the Sentiments of the Parliament of England thereupon be known, and that the Members of Parliament may consult those whom they represent. And after some debate on these motions, the following Petitions and Addresses were presented, viz. One in Name of the Barons, Freeholders and others within the Shire of Midlothian; another in Name of the Barons, Freeholders and others within the Shire of Linlithgow; and Three in Name of the Barons and Freeholders of Perthshire, all against allowing of an Incorporating Union with England; and were read and discuss'd on. And thereafter the debate for delay on account of consulting of those whom the Members represent, and for knowing the Sentiments of the Nation, and the procedure of the Parliament of England, was let fall; and it was agreed, that the

first Article of Union should be read, but that it should be intire next Federunt of Parliament to debate whether or not the first Article should be concluded by approving thereof or not, or if the Parliament may not before concluding thereof begin with and conclude any other of the Articles; and then the first Article was read. Thereafter the Act adjourning the Session till the first of December, was touch'd with the Scepter by her Majesties High Commissioners in the usual manner.

Edinburg, Nov. 2. I cannot send you the Minutes of this Night, because the Parliament rose late; The first thing they did was to read an Address from the Shire of Angus against the Union, it was sign'd by almost all the Heritors and a great many other People there: Thereafter there was a long debate, whether to proceed first to the consideration of the security of the Church or to the first Article of the Treaty, and upon stating the Question it was carried for the Articles of the Treaty by a majority of 38, then went into consideration of the said Article, and after a long time spent, the debate was adjourn'd till Monday.
